Art Unit: 1731

1. Claims 6-10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

The specification recites that "The slabs of ceramic material...according to the present invention...are manufactured from a ceramic mixture consisting of a granulate complying with specific parameters as regards particle size and of an aqueous inorganic binder which has special composition characteristics". The specification then incorporates by reference U.S. Patent 5,264,168 to teach these specific parameters. It is submitted, however, that the U.S. patent does not specifically set forth "specific parameters as regards particle size" or "special composition characteristics" of an inorganic binder.

2. Claims 6-10 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the process as specifically recited as steps 1-12 on pages 3-4 of the specification, does not reasonably provide enablement for the process as generically claimed. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to practice the invention commensurate in scope with these claims. For example, step 2 on page 3 recites arranging a sheet of paperboard on top of a support. Claim 6, step 1 recites a support made with a porous material. The specification, thus does not teach a support made from a porous material.

3. Claims 6-10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Step 2 on page 3 recites arranging a sheet of paperboard on top of a support. Claim 6, step 1 recites a support made with a porous material. The specification, thus does not teach a support made from a porous material.

4. Applicant's arguments filed 2/14/03 have been fully considered but they are not persuasive.

Applicant argues that the claims have been redrafted to overcome the 112 rejections. It is submitted however, that the 112 rejections have not been overcome for the reasons as set forth above.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 1731

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher A. Fiorilla whose telephone number is 703-308-0674. The examiner can normally be reached on M-F, 6:30am-3:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven P. Griffin can be reached on 703-308-1164. The fax phone numbers for the organization where this application or proceeding is assigned are 703-305-7718 for regular communications and 703-305-3599 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-0651.
